HOLIDAY Engagement

CLASS XII

From The Principal's Desk

Dear Students,

As the warm embrace of summer envelops us, let us pause and reflect upon the words of Helen Keller: "Life is either a daring adventure or nothing at all." Indeed, if life were devoid of challenges and uncertainties, it would lose its essence, its purpose, much like a ship adrift in calm waters.

The balmy months of May and June offer us an opportunity for self-reflection, a time to rejuvenate our spirits and nourish our minds. Amidst the tranquil respite, we find opportunities for familial bonds to flourish, for ventures into unexplored realms, for passions to be pursued and dreams to be realized.

It is said that an umbrella, a book, and the mind only serve their purpose when open! Let us heed these words and embrace the boundless possibilities that lie before us. Let our minds unfurl like the petals of a blooming flower, eager to absorb the wisdom and experiences that await us in the coming days.

The Summer Holiday Engagement of 2024 beckons with a unique purpose—a purpose to embark on a journey to elevate Social Emotional and Experiential Learning, as well as foster Financial Literacy! Let us immerse ourselves in delightful and enlightening endeavours to equip our youngsters with invaluable financial acumen and nurture empathy. Each challenge, each endeavour, will be a stepping stone towards personal growth and enlightenment.

As we engage ourselves in these activities, let us not forget the joy of learning, the thrill of exploration, and the warmth of companionship. Let us involve our families, for in their support and guidance, we find strength and inspiration.

I hold in high regard the creativity and individual strengths of each and every one of you. Your efforts, your contributions, are invaluable in shaping our collective journey.

Hope this Goenkan initiative of the Summer Holiday Engagement 2024-25 is a testament to our capacity for growth and is replete with learning and laughter.

Let us redefine who we are and embrace the spirit of collaboration, innovation, and compassion.

To quote Philip Adams

“When people say to me: ‘How do you do so many things? ‘I often answer them, without meaning to be cruel: ‘How do you do so little?’”

MAINTAIN A RESILIENT AND GROWTH ORIENTED MINDSET !

One must develop routines and rituals that are consistent. These are needed to Prime yourself for focussed work and to overcome inertia.

While intuition and leisure play a vital role in recognizing patterns and making constructive choices , it needs to be balanced with critical thinking and subjective analysis.

GENERAL INSTRUCTIONS:

Do the assignment in your blue writing skills notebook:

Write an essay! Practice Brainstorming and outlining! Length is important! Top scoring College admission essays have averaged about 400-500 words.

We need about 300-350 words from you on any ONE of the four topics given below:

1. ‘The destiny of a Nation is shaped in its classroom ! ‘
Write an essay supporting the statement and use examples from history, literature, and personal and popular experience to support your position.
2. If you rest, you rust.’ What does ‘rest ‘ and ‘rust ‘ mean ?
Can Rest be interconnected with laziness and indolence ? You may explain with examples.
Is there a correlation between sleeping hours and work efficiency ? Do they hold true for all ?
Gather evidence: its importance to moving forward. Rest is critical to progress because it allows us to function better.
Summarize arguments and examples.
3. A great work of fiction can allow us to see the truths that may be hidden from us in real life. A good example of the ability of fiction to teach important truths is _____.
Complete the sentence with a fictional work from literature, films or television and write an essay demonstrating how that story taught an important truth.
4. What determines success in life is not intelligence or talent, but character: those qualities gained both from living in an honourable and truthful manner and from

learning to deal with adversity and hardships.

Without character, an individual has no hope of true success. Even when competing against opponents of considerable intelligence or strength, those individuals who possess strong character will ultimately win.

Does a person's character determine that person's success in life ?

Plan and write an essay supporting your position with reasoning and examples taken from your reading, studies, experiences or observations.

NOTE : This essay / article will be included in your Internal Assessment CBSE marks. The Practical component will be partially based on this assignment.
